AVAILABILITY

Internship, summer 2027
May – August 2027

LANGUAGES

English – fluent
French – fluent
Mauritian Creole – native

SKILLS

LANGUAGES

C#
Java
Python
PHP
JavaScript, HTML & CSS
SQL, PL/SQL
Swift, Kotlin (in progress)

DATA & ML

pandas, scikit-learn
K-means, RFM analysis
Jupyter, Streamlit

DATABASES

SQL Server, Oracle, MySQL

TOOLS

.NET (Windows Forms)
Git & GitHub
Visual Studio
WordPress, WooCommerce

METHODS

OOP, data structures
Agile / Scrum, UML

PROFILE

Former retail manager turned software developer. I combine a solid foundation in C#, Java and Python with real-world business experience: team leadership, customer service and a WooCommerce e-commerce project. Passionate about machine learning, I completed Andrew Ng's Machine Learning Specialization and deployed a customer segmentation project. Rigorous, reliable and trilingual (French, English, Mauritian Creole).

PROJECTS

Customer Segmentation – Machine Learning

Personal project · 2026

Python · pandas · scikit-learn · Streamlit

- Segmented 5,839 customers of an online retailer (Online Retail II, UCI) using RFM analysis and K-means clustering; revealed that Champions, 20% of customers, generate 74% of revenue.
- Detected and fixed a data quality issue (cancellations matched to original orders); deployed the app online with Streamlit.

isadora-customer-segmentation.streamlit.app

RemaxImmo – Real Estate Management

Academic

C# · Windows Forms · ADO.NET · SQL Server

- Designed and delivered independently a multi-tier application with role-based access control: each agent can only access their own clients and their houses.

BST Phone Book – Data Structures

Academic · team of 2

C# · binary search tree · hash table

- Built and benchmarked two versions: classic BST and a hybrid BST / hash table / list structure; graphical tree display (Reingold-Tilford), CSV import/export.
- Delivered the project plus an extension beyond requirements (instructor grade: 99/100).

Bank System

Academic

Java · Swing · Oracle · PL/SQL

- Developed a banking application with a Swing GUI and modeled a normalized Oracle database (type-specific account sub-tables).

EDUCATION

DEC – Computer Technology (Programming)

In progress

Collège LaSalle, Montréal, QC · 5th of 6 terms

- Courses: advanced OOP (Java), data structures (C#), Oracle databases, PHP, mobile development (Swift, Kotlin).
- Collaborated in a 4-person Agile team (RoomMateMatch): sprint planning, UML design, code reviews.

Machine Learning Specialization

2026

DeepLearning.AI & Stanford (Coursera) – Andrew Ng

- Supervised and unsupervised learning, neural networks, recommender systems.

Responsive Web Design

2023

freeCodeCamp – certification (~300 hours)

EXPERIENCE

Prepared Foods Associate

Dec. 2025 – present

IGA – Brossard, QC

- Balance full-time studies with weekly opening shifts, never missing a shift or a deadline; serve customers in English and French at peak times.

Election Secretary

Nov. 2025

Elections Québec – Brossard, QC

- Verified voter identity and eligibility, recorded results and documentation under strict confidentiality.

Department Manager / Supervisor

2008 – 2023

Fashion retail – Port Louis, Mauritius

- Collaborated on building a WooCommerce e-commerce platform (customer UI, inventory management).
- Led teams of 8–12 associates: goals, coordination, training; grew sales by about 10% per year.
